

Judith Kolberg

Author, Industry Thought Leader and
One of the Founding members of our
Georgia Chapter

If you are a professional organizer or small business owner, you will not want to miss this interview with Judith Kolberg, a pioneer and thought leader in the professional organizing industry world-wide. You will be inspired by her story and may learn something too.

Professional organizers – and their clients – have benefitted from Judith's teaching and books on chronic disorganization, hoarding behavior, and Attention Deficit Disorder as it relates to organizing. New organizers especially need to know how to recognize these challenging clients.
